

Dufour 500 GL

The **Dufour 500 GL** is dedicated to pure cruising, the result of an innovative concept.

The main element that distinguishes it is the "**raised saloon**" deck. The slightly raised deck house allows you to enjoy bright interiors and spaciousness, while maintaining the style and aesthetic quality typical of all new Dufours.

The choice of new interior materials, characterized by a new light natural oak essence, soft and natural fabrics, and many high-level details, gives the whole an extremely relaxing, modern and high-level feeling.

The total refit we did in 2020 makes it reliable and totally modernized in the components of the journey.

Its harmonious lines make it a fast, comfortable and bright boat, you just have to book

The routes are endless, we can create them together or you can choose from itineraries designed with the utmost care. Imagine observing the **Egadi Islands, Favignana, Levanzo and Marettimo** from an exclusive point of view, the sea.

You will sail between coves and unique landscapes, eating the products of our land, among scents and colors that you will not be able to forget.
